Receiving detail

Each receiving record is counted once. A receiving rate is shown only when there are at least two recorded receiving times; otherwise it shows —.

RECEIVER	REFERENCES	ITEMS
Matt Totten QLD · Warehouse Operator	SCON 743450, SCON 750399	624
Helenna Ridder VIC · Warehouse Team Leader	SCON 748450	4,000

HOW IT IS WORKED OUT

How the numbers are worked out

Rates and hours

Pick/hr, Pack/hr and Receive/hr use the recorded times for that type of work. **Overall rate** combines all work, counting each received item as one quarter of a picked or packed item.

Estimated hours add the gaps between recorded times, counting no more than 60 minutes for any one gap. One recorded time is not enough to estimate hours, so the report shows —.

Names and sites

When Cin7 names QLD, NSW or VIC, that site is used. When it does not name a site, the reviewed staff list is used. “Rechard Oozeer” is assigned to QLD because repeated Cin7 records identify the Brisbane warehouse; the name is included in the confirmed staff list.

This is a guide to daily warehouse activity. It is not clocked attendance, payroll evidence, or a formal staff performance rating.
